"Mary did a great job with training our techs. I mostly wanted them to be more efficient with dental radiology, but she gave us a whole lot more. I'd highly recommend having her in your practice to train your team."

~ Andrew Kliewer, DVM
Heartland Pet Hospital

MEET MARY BERG, BS, RLATG, RVT, VTS (DENTISTRY)

Mary received her B.S. in Biology/Microbiology from South Dakota State University, her A.S. in Laboratory Animal Science from Redlands Community College, and her A.S. in Veterinary Technology from St. Petersburg College. She is a Charter member of the Academy of Veterinary Dental Technicians and received her Veterinary Technician Specialty in Dentistry in June 2006.

The VTS (Dentistry) is awarded to individuals who have demonstrated advanced knowledge in dentistry and dental disease. Awarded by the Academy of Veterinary Dental Technicians, a VTS (Dentistry) showcases that the individual has a vast knowledge base of dental diseases to help educate clients on the importance of oral health and explain potential doctor performed treatments to clients.
